

Albany incumbents are feasting.

And you get
stuck with the bill.

TIM KENNEDY IS RUNNING TO CHANGE ALBANY — STARTING WITH CLEANING UP THE PERKS.

Western New York families are hungry for change because Albany incumbents like Jack Quinn III and Bill Stachowski are hungry for more — **more fancy meals, more extravagant travel** and **just plain more for themselves.** That's why we need to elect Tim Kennedy — our reform candidate for State Senate.

Tim Kennedy (on the left) is working to revitalize our region and attract new jobs for Western New York families.

KENNEDY'S PLAN FOR REFORM: Fewer Perks for Politicians

While all of us continue to make sacrifices in this tough economy, Stachowski and Quinn III make out like bandits — receiving taxpayer-funded meals, first-rate travel reimbursements and \$171 every day they spend in Albany. And Stachowski led his fellow senators by receiving more than \$300,000 in travel reimbursements and per diem payments over the past 10 years.¹

Tim Kennedy will fight to put a cap on out-of-control property taxes to help Western New York families.

Tim will fight to end individual legislator slush funds and prohibit travel per diem payments to legislators if they fail to pass a budget by the deadline.

KENNEDY'S PLAN FOR REFORM: Lower Property Taxes and Less Government Spending

Tim's plan will cap property taxes, streamline government services and seriously reform the public authorities that have racked up over \$100 billion in debt.

KENNEDY'S PLAN FOR REFORM: More Safety for Western New York Families

As an Erie County legislator, Tim passed a law to ban the dangerous practice of texting while driving, fought for harsher penalties for sexual predators and worked to hire more deputy sheriffs. As our next state senator, Tim will keep government focused on its highest priority: keeping our families safe.
