- * **Rebuild our city** Prop 1 will provide the funds to repair, replace, or upgrade every street in Houston that is past its useful life, finally halting the decay and blight that comes with our aging, crumbling streets and drainage systems.
- * **Pay as you go** Instead of borrowing money with bonds and paying millions of dollars in interest payments, Prop 1 requires the city to pay as it goes for street and drainage projects.
- * **Dedicated fund** Prop 1 creates a fund that is dedicated to repairing streets and drainage problems – and politicians cannot spend the funds on any other projects.
- * **More local jobs** The projects funded by Prop 1 will create badly needed jobs – and with the city's anticipated Hire Houston First program, those jobs will go to Houston families first, whenever possible.
- * **Green solutions** Prop 1 will help design drainage solutions that can add to our green space and improve water quality and recreational opportunities.
- * **Sound science and engineering** As part of these reforms, the city is conducting extensive studies to find out what needs fixing so that the money is used to fix the worst problems first, no matter what part of town they are in.
- * **Faster emergency response times** Prop 1 will help reduce flooding and bad road conditions that keep first responders from arriving on the scene quickly.

Vote **FOR** Proposition 1: "The Chronicle believes Proposition 1 is the most cost-effective and fair way to keep our city high and dry and moving into the future." — *Houston Chronicle, 10/2/2010*
